Detailed description of project						Type of services provided		
<p>The aim of the project is to secure implementation of the Bosnia and Herzegovina (BiH) Food safety legislation through the human resource strengthening in order to provide a high level of food safety and increased competitiveness of the BiH agricultural products on domestic and international markets. The specific objectives of the project clearly refer to the achievement of following results:</p> <ul style="list-style-type: none"> Demonstrated capacity of the Food Safety Agency (FSA) to perform its basic tasks resulting from the food legislation, in particular related to the risk assessment, coordination of risk management and communication with all stakeholders involved in the food safety chain. Existing food safety, hygiene and quality control improved through the enhanced capacities of the competent inspection bodies. Authorized laboratories perform more specific analysis based on internationally recognized methods and procedures. Established BiH register of food business operators. Enhanced trading position of food producers and processors through application of food safety programs and standards for self-control. 						<ul style="list-style-type: none"> Classroom training and practical training in laboratory concerning chemical methods. Training on risk assessment. Assessment of laboratory network. Preparation of national laboratory plan.
