Detailed description of project						Type of services provided		
<p>Project objective and purpose are both aimed to improve the overall management of food sector in the former Yugoslav Republic of Macedonia (FYROM). The project provides technical assistance to the Veterinary Directorate of the Ministry of Agriculture, Forestry and Water Economy of FYROM in order to improve its overall ability and capacity for implementation of the EU 'acquis' and accession partnership commitments, with specific reference to its capability to transpose and implement EU 'acquis' into national law, appropriately improve its inspection services, control animal disease, organise animal waste disposal and expand the animal identification and registration system to include pigs. The main objective of the project is to contribute to the protection of the animal and human health and to increase the profitability, competitiveness and sustainability of the food sector by improving the food safety and quality standards.</p>						<ul style="list-style-type: none"> <li>• Establishment of professional Human Resource Development system of the Macedonian Food and Veterinary Agency.</li> <li>• Training on food safety and inspection</li> <li>• Training of Trainers on different disciplines of food hygiene and veterinary public health.</li> <li>• Monitoring plan for zoonoses</li> </ul>
