

Advances in Microbial Diagnostic Microarrays

MARCH 15 – 16, 2010

**INTERNATIONAL CENTRE FOR VETERINARY EDUCATION
AND INFORMATION IN ANIMAL HEALTH
AND FOOD SAFETY (CIFIV),
COLLEATTERRATO ALTO (TERAMO), ITALY**

Draft Agenda

Day	Time	Location	Speakers	Activity
15 March 2010	9,00	CIFIV	R. Lelli I.Z.S. A. e M.	Welcome address
	9,15		A. Nantel	What can microarray do for us?
	9,45		A. Nantel	Rewiring of transcription factor networks in fungi
	10,45		-	Coffee break
	11,00		M. van Het Hoog J. S. Deneault	Practical demonstration of BrizP-Db
	12,00		A. Kistler	Microarray-based virus detection and discovery with the Virochip
	13,00		-	Lunch
	14,00		Joy D. Van Nostrand	The Geo Chip
	15,00		-	Coffee break
	15,30		A. Kistler	Polly doesn't want a cracker: identification of a novel avian bornavirus associated with proventricular dilatation disease in psittacines
	16,30		-	Discussion
	17,00		-	Ending training day
	20,00		Restaurant	Social dinner
Day	Time	Location	Speakers	Activity
16 March 2010	9,00		R. Steri	Microarray pig-zoonosis V4: response analysis on mono-specific samples
	10,00	CIFIV	M. Amasia	CD Microfluidics for Molecular Diagnostics
	11,00		-	Coffee break
	11,30		C. Dimauro	Mathematical and statistical issues to identify differentially expressed genes from microarray experiments
	12,30		-	Discussion
	13,30		I.Z.S. A. e M.	Conclusions
	14,00		-	Lunch
	15,00		-	Departure
