Contribuir a preservar y elevar la sanidad animal, vegetal y humana

Havana, May 15, 2009

To: Dr. Vincenzo Caporale
Director of the *Istituto Zooprofilattico dell'Abruzzo e del Molise "G. Caporale"* (IZS A/M)

Dear Dr. Caporale,

I would like to thank you and your staff, including Dr. Rossella Lelli and Antonio Petrini from the OIE Collaboration Center for your kind attention and help to the young researchers who spent a fruitful stay in your prestigious institution.

I think it is a great opportunity for both centers to develop this strong collaboration within the OIE Twinning Project between the National Center for Animal and Plant Health of Cuba and the OIE Reference Laboratory for Contagious Bovine Pleuropneumonia of the Istituto Zooprofilattico Sperimentale dell'Abruzzo e del Molise "G. Caporale" which recently started. We hope to obtain the results expected.

Thanks again,

Yours faithfully

Dr. Lydia M. Tablada Romero
General Director
National Center for Animal and Plant Health (CENSA)
